

ALL CLEAR Aerospace & Defense

EXCELLENCE IN SUSTAINMENT SOLUTIONS

KT-1

KT-1 Sustainment

As platforms age, OEM support for sustainment diminishes and end-users tasked with maintaining operational readiness are faced with critical supply chain deficits. AllClear Aerospace & Defense offers its military customer base KT-1 aircraft solutions that address these shortfalls.

Company Overview

At AllClear, we have a simple mission: to keep our customers' fleets mission-ready. To accomplish that mission, we have brought together over 55 years of combined experience serving the United States military and its allies. AllClear's sustainment solutions cover over 25 of the most utilized aircraft, support with distribution agreements from leading OEMs, in-house and managed repair solutions, engineered products, manufacturing capabilities, and a team that is dedicated to your fleet's safety and performance.

Distribution

In collaboration with established alliances and strategic partnerships with the industry's leading manufacturers and repair centers, AllClear provides in-stock parts and supplies for operators, depots, and aircraft MRO centers worldwide.

Our distribution team has vast experience managing global distribution programs and works as your partner, ensuring that you fleet is mission-ready, with minimal downtime for maximized performance, safety, and reliability.

Repair Services

AllClear Repair Services is the leader in repair and overhaul management, offering affordable readiness while delivering OEM quality and reliability. Strategic alliances with many OEM partners gives us the leverage to offer our customers faster TAT, competitive pricing, and best in class service from our Repair Management team. As an integrated solutions provider, we make the repair and overhaul process stress-free for our customers.

Engineered Products

Airborne Technologies is a multi-faceted supplier with in-house manufacturing and engineering capabilities.

- Airframe structural components and assemblies
- Contoured and formed parts
- Water jet cutting
- Tool design

Manufacturing capabilities for soft goods from seat components to curtain installation blankets, absorbing panels, and more.

OEM and NADCAP certified source for precision welding processes, that include spot, seam, stud, and flash welding services for the aerospace and defense markets.

Logistics Solutions

At AllClear, our flexible logistics solutions are designed to keep your aircraft mission-ready. From provisioning to inventory management, and life-extension upgrades to total logistics support, we're ready to help with tail to tip support.

QUALITY AND COMPLIANCE | AllClear Aerospace & Defense is committed to quality, continuous improvement, and full regulatory compliance at every level of the organization through AS9120 and ISO 9100:2008 certifications, implementing lean processes, continuous quality improvement training initiatives, and a customer service focused business model. Our in-house legal and compliance teams maintain robust processes and procedures to comply with all federal, state, and local regulations including ITAR, EAR, and the FCPA.
