

Valcor Engineering is a recognized leader in the design and manufacture of aerospace fluid control devices for use in fuel, hydraulics, pneumatics, and fuel inerting systems. Products include pressure regulating valves, relief valves, solenoid valves, accumulators, and manifolds. Valcor's Electroid brand is also the leader in the design and development of electromechanical actuation and motion control components and systems, most notably brakes and clutches. Valcor Fluid Management Systems are on a wide variety of aircraft.

AllClear is proud to partner with Valcor as their exclusive global military aftermarket distributor across various platforms and product lines to help keep you mission ready.

CAGE: 96487, 16554

PLATFORMS: V22, CH53, F18, A10, CH47, AND MORE

Systems Supported

ACCUMULATORS
CHECK VALVES
ENGINE BLEED AIR VALVES

LATCH VALVES
MANIFOLDS
MANUAL/LEVER OPERATED VALVES

PRESSURE REGULATORS
RELIEF VALVES
SOLENOID VALVES

QUALITY & COMPLIANCE

AllClear Aerospace & Defense is committed to quality, continuous improvement, and full regulatory compliance at every level of the organization through AS9120 and ISO 9100:2008 certifications, implementing lean processes, continuous quality improvement training initiatives, and a customer service focused business model. Our in-house legal and compliance teams maintain robust processes and procedures to comply with all federal, state, and local regulations including ITAR, EAR, and the FCPA.
