PTI Technologies is a world leader in the design, development and manufacture of highly engineered filtration solutions, and fluid control equipment. PTI has developed their aerospace expertise over the past ninety years with a proven record in providing innovative and highly reliable products across many aircraft platforms ranging from most US manufactured military platforms, commercial aircraft, and business and regional jets.

CAGE: 05228

Features and Benefits

HIGHEST QUALITY

SHORT LEAD TIME

OPERATIONAL FOR OVER 80 YEARS

OVER 250 MILLION FLYING HOURS ON PTI FILTRATION SYSTEMS

Filtration systems range from simple, in-line bleed air filters to "T-Type" filter assemblies to sophisticated fuel, lube, and hydraulic assemblies. PTI also supplies filtration for aircraft cooling systems, cabin air, and potable water applications.

QUALITY & COMPLIANCE

AllClear Aerospace & Defense is committed to quality, continuous improvement, and full regulatory compliance at every level of the organization through AS9120 and ISO 9100:2008 certifications, implementing lean processes, continuous quality improvement training initiatives, and a customer service focused business model. Our in-house legal and compliance teams maintain robust processes and procedures to comply with all federal, state, and local regulations including ITAR, EAR, and the FCPA.
